

RevGoldUpdate

Real-time precious metals pricing for India

The Challenge

Gold and silver prices shift constantly throughout the day. Traders, jewellers, and buyers need reliable, real-time information across different Indian cities—without complexity.

Fragmented Data

Prices vary by location

Poor Tools

Limited mobile solutions

Tax Complexity

GST calculations unclear

Our Solution

Real-Time Updates

Live prices every 5 minutes

Multi-City Coverage

Chennai, Mumbai, Delhi, Hyderabad, Bangalore

Smart GST Toggle

Automatic 3% calculations

Share & Compare

One-tap sharing feature

Why RevGoldUpdate?

Mobile-First

Optimised for any device with instant access

Accurate

Real-time data with precise timestamps

Transparent

Clear pricing breakdowns, no hidden charges

Flexible

Dark and light themes for user preference

Technical Foundation

React 18

Modern UI framework

TypeScript

Type-safe code

Tailwind CSS

Responsive design

React Query

Smart data management

Built with automatic 5-minute refresh intervals, theme system, and real-time toast notifications

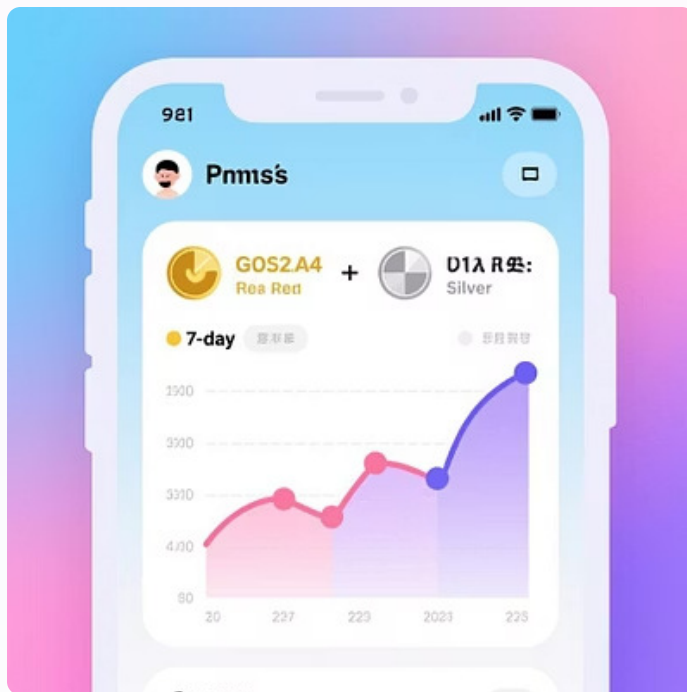

Three Core Screens

01

Home

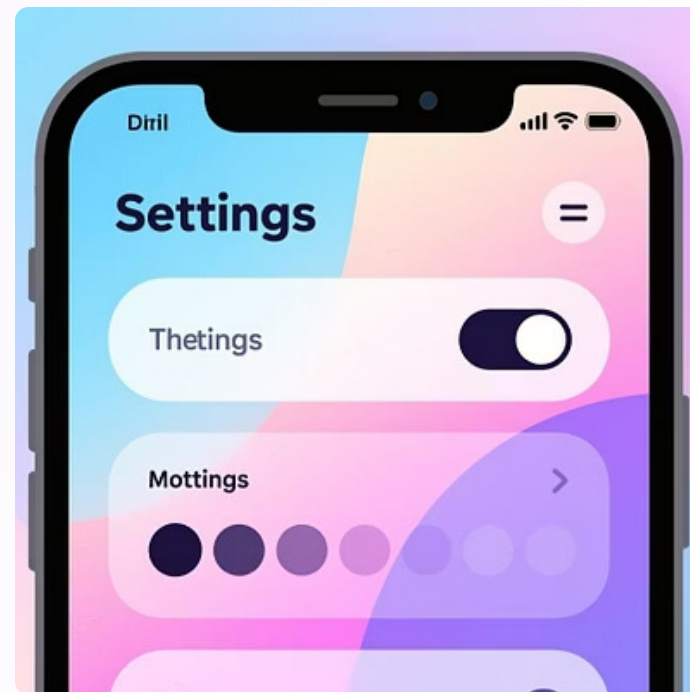

Live prices, city selector, GST control

02

Trends

7-day charts, metal comparisons

03

Settings

Theme preferences, information

Data & Pricing

Current Implementation

- Realistic mock data across 5 cities
- Simulated live price variations
- Gold priced per 10 grams
- Silver priced per kilogram

Next Phase

- Real API integration ready
- Historical data storage
- Price alert system
- Predictive analytics

Development Roadmap

Market Opportunity

800...

**Gold Consumed
Annually**

India is the world's
second largest consumer

5

**Major Cities
Covered**

Chennai, Mumbai, Delhi,
Hyderabad, Bangalore

4

**Primary User
Groups**

Jewellers, traders,
buyers, advisors

Let's Move Forward

1

Integrate Live API

Connect real precious metals data feeds

2

Launch Authentication

Secure user accounts and preferences

3

Deploy to Production

Make RevGoldUpdate available to users

4

Measure Success

Track engagement, retention, feature adoption
